WORK EXPERIENCE

Full Stack Developer — Entitledarts Pvt Ltd Jul 2023 – Present

- Built and optimized secure, ADA-compliant, and responsive web apps using React.js, TypeScript, and Material-UI.
- Designed reusable UI components and integrated Redux, reducing development effort by 30%.
- Collaborated with backend and analytics teams to optimize APIs and improve performance and scalability.
- Conducted code reviews, enforced coding standards, and managed Git repositories for version control.

PROJECTS

Bluebird – Real-time AI Surveillance Platform

React.js, Material-UI, WebRTC, React Konva, Google Maps API

- Designed a scalable User Portal with real-time map alerts, live stream control, and analytics dashboards.
- Developed an Admin Portal with property management, custom map tools, and WebRTC-based live camera integration.
- Delivered high-performance streaming solutions with adjustable controls for large-scale operations.

Survey Feedback Platform – VIVO (Vdream Technology Pvt. Ltd.)

WordPress, Live Chat, Wp-forms

- Built a feedback system with pages for Home, Experience Stores, Service Centers, Blogs, and Contact.
- Enabled dynamic content management and optimized UX across devices.

Vigneshwara Pooja Kit – E-commerce Platform

WordPress, WooCommerce, PhonePe Payment Gateway

- Developed and launched an e-commerce store with secure PhonePe payment integration.
- Designed intuitive user flows for product browsing and checkout, ensuring ADA compliance and responsive UI.
- Achieved 300+ successful sales, driving measurable business impact.
